Public Charities

Part of the organization's annual budget

Charity's fundraising directly impacts grantmaking budget

- Accountability – the general public, especially donors =

Type of scrutiny allows for MORE flexibility

Grant guidelines reflect the funder's mission

Keep it 'Real'.....

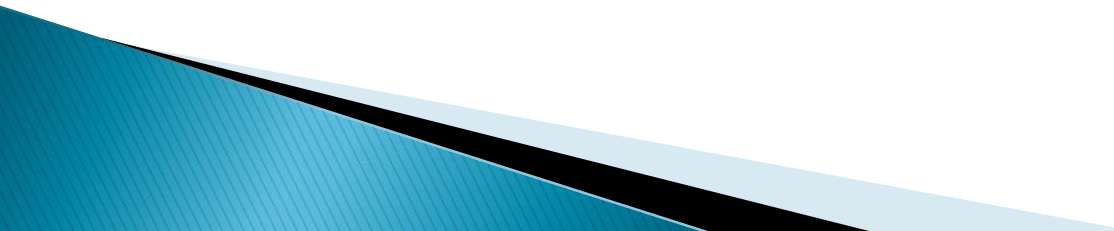

What does this mean to the grant seeker?

We've been looking for you!

If you've been looking for grants, we've been looking for you—and so far we've found 4,133! Grant Spy does the legwork for grant seekers in non-profit organizations, government agencies, special districts, schools, police and fire departments, and others across the nation so that they can spend less time searching for funding and more time writing proposals. Every business day, we deliver summaries of the latest opportunities from federal, foundation, and state funders in one convenient e-mail, all for about \$1.00.

Tools for serious grant seekers

Grant Spy's [daily e-mail bulletins](#) notify you of the latest funding opportunities and let you get a jump on tight deadlines. Brief summaries of new and updated grants (including links to original announcements), together with useful [news and information](#), are presented in an easy-to-read HTML format. Our [grants database](#) allows you to conduct focused research for specific programs or funding categories. This constantly growing information source presently contains summaries of 4,133 grant programs. Your [personal web folder](#) will help you to organize your grant-seeking efforts: when you find an interesting grant in a bulletin or in the database, add it to your folder with one click. You'll know where to find it later, and you can even e-mail it to yourself.

Grant Spy combines the timeliness of daily bulletins with the versatility of a searchable database. We think this approach is best for most grant seekers, because grant-seeking is not an occasional activity. A last-minute search of a large database can be overwhelming, frustrating, and inefficient. It's easy to end up with a long, cumbersome list of potential funders, yet still miss the most promising opportunities. And if you only look once or twice a year, you're likely to miss a lot of deadlines: many grants have an application window of only 30 days or less!

Grant Spy's daily funding bulletins not only provide up-to-the-minute notification of newly released RFPs; they also let you review them a handful at a time, over the course of the year. And when you do need to conduct grants research, our ever-growing database allows you to quickly locate potential funders and specific

Grants

ASPCA Grants provide support to a variety of U.S.-based nonprofit animal welfare organizations through cash grants, sponsorships, and training. While we generally do not place a ceiling on grant amounts, most grants range between \$500 and \$10,000. Please bear this in mind when submitting your request unless otherwise instructed.

Grants provided between December 2014 and June 2015 are made in part thanks to the support of the Subaru "Share the Love" event.

Please review general grant guidelines and restrictions here. The ASPCA does not accept unsolicited grant proposals by mail, email, or in any format other than through this site.

The image is a screenshot of a web browser displaying the Doris Day Animal Foundation website. The browser's address bar shows the URL 'http://www.dorisdayanimalfoundation.org/grants'. The search bar contains the text 'animal welfare grants'. The website header features the DDAF logo on the left, which includes silhouettes of a dog, a cat, and a horse. To the right of the logo is a navigation menu with links for 'ABOUT DDAF', 'OUR WORK', 'GRANTS', 'RESOURCES', 'NEWS', 'WAYS TO GIVE', and 'STORE'. A 'DONATE' button is prominently displayed in yellow. Below the navigation menu is an orange banner with the text 'Home » Grants'. The main content area is titled 'Grants' and contains three paragraphs of text. The first paragraph explains that DDAF funds nonprofit organizations that need assistance in caring for and protecting animals. The second paragraph details the evaluation process and submission deadlines. The third paragraph provides instructions for organizations seeking funding. On the right side of the page, there is a sidebar with a section titled 'IN GRANTS' containing two links: 'Guidelines & FAQ' and 'Suggest a Grantee'. Below this is a banner with the text 'Make a Difference!' and 'Give an animal a second chance at life!', accompanied by a photo of a woman holding a cat and a 'Ways to give' button. At the bottom of the page, a taskbar shows various application icons and the system clock indicates the time is 3:59 PM on 2/9/2015.

Grants

The Doris Day Animal Foundation funds nonprofit 501c3 organizations that need assistance in their work of caring for and protecting animals. Through our grants, scores of animal rescue and welfare organizations have received sustaining resources to continue their work, to offer additional services or to expand their reach to the animals who most critically need their help. A special focus for DDAF is on programs benefitting senior pets and the people who love them.

DDAF evaluates prospective grantees and makes grants throughout the year. We consider applications quarterly, with submission deadlines on March 31, June 30, September 30, and December 31, funding the groups that meet our guidelines and that we believe have the greatest or most urgent need.

If you represent an organization seeking funding, please review the Guidelines and FAQ link below. Send us your letter of introduction and if it looks as if there is a good fit we will invite you to submit your grant application and supply the necessary documents. If your application is selected for a grant, we will notify you during the

Funding Guidelines

Animal Welfare Trust's grant program seeks to assist organizations whose work can help alleviate animal suffering and/or raise public consciousness toward giving animals the respect they so need and deserve. Although general organizational funding will be considered, preference will be given to well-defined projects with clear goals and objectives. Capital projects will not be considered. Areas of priority include farm animal welfare, vegetarianism and humane education.

Grants will generally be made in the \$2,500 to \$20,000 range, although requests outside either end of this range will be considered. Grant requests can be for a single or multi-year period, depending on the nature of the project. Grants will be made largely to organizations classified as public charities under section 501(c)(3) of the IRS code.

Animal Welfare Trust anticipates giving out 10 to 15 grants per year. Accordingly, we believe our grant program must be focused in order to maximize the impact of the grants we give. In general, we are interested in

How to Apply

Before you send a full application:

Applicants are encouraged to *submit an e-mail inquiry* to determine if the intended funding request falls within the scope of AWT's funding program. Please include a brief description of your organization and the amount and purpose for the request, along with your name, title and contact information. The purpose of this inquiry is to avoid the time and effort in presenting a full application for requests that are simply out of the scope of our grant program.

Please note: While we read all e-mail inquiries within 30 days of receipt, we will only respond if we are interested in seeing a full grant proposal.

Veterans to Benefit from \$25,000 Award in Blackman Kallick Plante Moran Chicago Community Champions Contest

8/20/2012

The Great Books Foundation, a Chicago-area educational organization, will use award to promote learning and community camaraderie for military veterans and their families

CHICAGO – Blackman Kallick Plante Moran, the newly merged sixth largest accounting firm in Chicago, today announced that The Great Books Foundation (GBF) won the \$25,000 Chicago Community Champions contest award by receiving the most online votes in the final round.

The Great Books Foundation will use the Chicago Community Champions donation to develop a series of discussion programs for returning veterans and their families at community centers in the Chicago area and for a documentary film that captures the participants' shared experience of these discussions.

"We are proud of the excitement that was generated by this contest and the attention that its participants and their causes have received throughout the last few weeks," said Steve Schneider, managing partner and leader of the newly-merged Blackman Kallick Plante Moran offices in downtown Chicago. "There are many well-deserving not-for-profits in the Chicago area. We are honored to give The Great Books Foundation this award to increase awareness and support for the hard-working members of our U.S. military."

The Great Books Foundation's program, Veterans are Community Champions, will invite returning veterans and their families to participate in discussions of literature that focuses on their concerns and aspirations. The documentary will show others how to start and sustain similar programs in their own communities.

"My colleagues and I are very grateful for the support this donation will give to our work in the Chicago area as part of the Great Books Foundation's wider national veterans initiative. We hope that the

Summer's are an interesting time of year for most non-profit animal shelters. It's the time of year in which your fundraising revenue typically dips, while the demand for your programs and services is most likely at its highest level.

Corporate Giving and The Wal-Mart Foundation

Our Mission

At Wal-Mart, we're committed to acting as a globally responsible citizen, and we strive to improve the quality of life for our associates, customers and communities through financial contributions, in-kind donations and volunteerism.

Our Philosophy

Our community involvement program is based on the philosophy of operating globally and giving back locally. In our experience, we can do the most good by supporting issues and causes that are important to our customers and associates in their own neighborhoods. We rely on our associates to know which organizations are the most critical to their hometowns, and we empower them to determine how Wal-Mart Foundation dollars will be spent. Consequently, our associates channel our funding initiatives directly into their local communities.

The image shows three people, two women and one man, standing together and holding a large ceremonial check. The check is from Wal-Mart and is payable to the 'Museum of African American History' for \$250,000. The man is in the center, flanked by two women, one in a red jacket and one in a patterned jacket.

Implementation

Our approach to community involvement is unique, combining both financial and volunteer support. We encourage our associates to get involved in their local communities and to support the programs that are making a positive

GRANTS FOR PAWSOME CAUSES

Build-A-Bear Workshop® and its charities support children's health and wellness, literacy and education, animal causes and the environment.

Build-A-Bear Workshop® believes in the teddy bear philosophy of being good people and good bears. In living those values, we provide grants through the Build-A-Bear Workshop Foundation and the Build-A-Bear Workshop Bear Hugs Foundation to 501(c)(3) public charities or registered Canadian charities that support bearly special causes, such as children's health and wellness, animals, and literacy and education.

Children's Health & Wellness

We desire to provide direct support for children in the areas of health and wellness such as childhood disease research foundations, child safety organizations and organizations that serve children with special needs. Our goal is to provide grants to help many programs that are working hard to make the world a healthier and happier place for kids.

These grants are funded through the sale of Champ - A Champion Fur Kids. One dollar from the sale of Champ bear is donated through the Build-A-Bear Workshop Bear Hugs Foundation to children's health and wellness causes throughout the United States and Canada. [Click here for details on Nikki's Legacy](#), the inspiration behind these efforts.

For 2014, we will be accepting children's health and wellness grant requests during February and March.

COMMUNITY SUPPORT

Overview:

The NASCAR Foundation is proud to support a number of charities and organizations across the country, within the motorsport industry, and in our racing communities that affect the ability of children to live, learn, and play. Throughout the year, we partner with other groups to provide enhanced learning opportunities for children, professional development and continuing education for those who work directly with children, and once-in-a-lifetime opportunities for kids to see NASCAR and the track in a way only a limited number of people will ever experience. Thank you to all of the organizations who have allowed us to further both their mission and ours, and in doing so, helped us deepen our involvement in communities across the country.

Funding Applications Available Now!

Ever dreamed of winning the lottery? Well, your odds just got a whole lot better! No, we don't have a secret formula for finding the next set of Power Ball winning numbers. But we are going to show you how to get your hands on some of the free funding that is available out there for people who want it and who qualify.

Every year, billions are given away - Yes that's given away - in free funding. With thousands of federal programs alone (not including those programs run by states), there might be money out there for just about anyone - or anything. Additionally, there are tens of thousands of foundations, corporations, and other funding agencies that also give out funding. You just need to apply and be sure you are eligible to have a shot of receiving the funding!

So, if there's so much funding being handed out, why don't more people apply? First, getting your hands on some of that money isn't always easy. It takes time and work just to sort through the thousands of available funding opportunities, then there's filling out applications and writing proposals-all with no guarantee that you'll ever receive a check. That's simply too much work for most people, especially when they wonder if there is even funding that's right for them. But, for those willing to invest the time and energy into finding, applying for, and submitting proposals, it can be very profitable. With the right team of people assisting you, the process can be made clearer, manageable. Easier.

Getting started is easy! Just fill out the registration membership form below, pay the registration fee, and begin your search for the funding through our specialized funding site!

Gingerbread Dog House Contest

The Bonnie Hays Animal Shelter is holding the third annual Gingerbread Dog House Contest on December 13th, 2014 - hosted by Cedar Hills Crossing in Beaverton, Oregon. This year will be even better than last year!

To Enter a Pet Themed House or Cake:

Although the contest is called the Gingerbread DOG House Contest, all pet inspired entries are welcome. The 2012 winner was a mouse dream house that looked like a wedge of cheese!

In addition to traditional style gingerbread houses, CAKES are welcome in addition to anything else you can think of, as long as all visible portions are 100% edible. For more information, please see the rules.

Entries will be accepted on Saturday, December 13th between 11 a.m. and noon at Cedar Hills Crossing Center. Space is limited and we highly recommend pre-registering. You may pre-register by filling out the form below or by downloading the registration form and sending it to us via email, fax or mail, or drop it off at the shelter. We may be able to take some day-of entries, but we very much appreciate pre-registration.
