CARE & CONTROL ASSOCIATION

The National Animal Care & Control Association
is committed to setting the standard of professionalism in animal
welfare and public safety through training, networking, and advocacy.

In Support of Feline Fix by Five Awareness Month

The National Animal Care & Control Association (NACA) is proud to endorse **Feline Fix by Five Awareness Month** this February. This critical campaign addresses an issue that is often overlooked: the optimal time to spay or neuter cats.

NACA strongly supports early spay/neuter procedures as a proven method to manage feline overpopulation and improve the health and well-being of cats. We advocate for spaying or neutering animals prior to adoption from shelters and encourage educating pet owners on the benefits of altering their pets at an appropriate age.

Feline Fix by Five Awareness Month exemplifies the importance of proactive campaigns that educate, empower, and mobilize communities to address systemic challenges in animal welfare. At NACA, we firmly believe that initiatives like this are essential to creating a sustainable future for animals and their caregivers.

We stand in full support of this mission and urge our colleagues, partners, and communities to join us in promoting Feline Fix by Five Awareness Month. Together, we can create a meaningful impact for cats, their owners, and the animal welfare community as a whole.

Sincerely,
Jerrica Owen
Executive Director

National Animal Care & Control Association
