Free Webinar: Bridging the Gap – How VPAs Can Revolutionize Veterinary Care

Anywhere, USA (September 17, 2024) – Could the introduction of the Veterinary Professional Associate (VPA) role be a game-changer for the veterinary profession? How might this role enhance access to veterinary care and affordable spay/neuter services? What can the average person do to support its development? Join us on September 27, 2024 at 2:00 PM ET for a free webinar where we delve into these questions and explore the transformative potential of the VPA role.

In this Q&A-style webinar, Stacy LeBaron, Interim Executive Director of United Spay Alliance, will engage in an insightful discussion with Dr. Bob Murtaugh.

Dr. Bob Murtaugh brings over 40 years of experience in veterinary medicine, with a distinguished career spanning both academia and practice. His roles include contributions at Tufts University, Dove Lewis Emergency Animal Hospital, and Thrive Pet Healthcare, where he helped expand operations to over 350 locations across the U.S. Currently, as the Founding Dean of Rocky Vista University College of Veterinary Medicine, Dr. Murtaugh continues to shape the future of veterinary care.

The webinar, *Bridging the Gap: How VPAs Can Revolutionize Veterinary Care*, will cover:

- How the VPA role addresses current and future challenges in veterinary care.
- Opportunities for growth and development for veterinary providers and practitioners.
- Practical steps the veterinary community can take to support the VPA role.

No veterinary experience is required! This session is designed for anyone interested in the future of veterinary care and its impact on spay/neuter access.

Participants will have the opportunity to engage in a live Q&A with Dr. Murtaugh, exploring how the VPA role could influence practice sustainability, professional development, and access to affordable care.

Register today to learn how you can be a part of the evolution in veterinary care.
